

BREC's Kendalwood Conservation Area

RULES & REGULATIONS

1. Hunting & shooting prohibited.

This is a conservation area with hikers on trails. To report hunting or fishing violations, contact LDWF (800) 442-2511.

City Parish Ordinance Title 13, Sec. 13:1010, 13:1011

2. Park open from sunrise to sunset.

Overnight camping and campfires are not allowed.

City Parish Ordinance Title 12, Chapter 3, Sec. 12:207-272

3. Leave No Trace.

Dispose of waste properly; what you pack in, you should pack out. Trash pollutes the land and water, which is harmful to wildlife.

4. Do not enter private property.

BREC's land ends at Bayou Manchac and does not include the opposite bank. Respect our neighbors by staying within park property at all times.

5. No motorized vehicles.

Off-road vehicles, motor-bikes and other motorized vehicles are not permitted in this park.

6. Collecting prohibited.

Picking and collecting plant and animal products is not allowed and disturbs the environment.

7. No camping or fires.

This park is not designed for overnight camping or campfires; park closes at dark.

8. Respect wildlife.

Refrain from feeding, harassing, killing, or displacing animals. Wild animals, including venomous snakes, are present.

9. Dogs welcome on a leash.

Dogs must stay on a leash at all times and their waste disposed of properly. Please pick-up after your pet.

City Parish Ordinance Title 14, Chapter 2 Sec. 14-204

Please respect the park by abstaining from the following:

- Driving motorized vehicles within the park
- Possession or use of drugs or alcohol
- Vandalism
- Profane language
- Digging, excavating or use of metal detectors

CAUTION The park you are about to enter is a conservation area set aside to protect habitat and the wildlife and plants within. This area may contain wildlife such as snakes, ticks, coyotes and alligators and the potential to come in contact with plants such as poison ivy. Please use caution and wear appropriate attire for hiking.

All scientific research occurring on BREC property requires a Research Permit, issued by the Conservation Department. For more information: BREC.ORG/CONSERVATION
