FLANNERY ROAD PARK

BREC NEIGHBORHOOD PARK

DESCRIPTION

In November 2012, BREC staff joined volunteers from Humana, KaBOOM, neighborhood residents and community groups to build a new playground. Then in April 2013 Flannery Road Park underwent a master planning process for park renovations. BREC hosted a community open house at the recreation center in order to give residents in the area a

voice in the creation of a master plan. Additionally, the State has added funds to the project increasing the overall renovation budget. Improvements include paved parking with additional ADA parking spaces, neighborhood connector pathways, a walking loop, a sand volleyball court, and a new playground appropriate for 2-5 year olds to play.

FLANNERY ROAD PARK

PROJECT SITE PLAN

FORTUNE ADDITION PARK **BREC NEIGHBORHOOD PARK**

DESCRIPTION

Fortune Addition Park is located at the end of Peerless Street, in Zion City, east of Plank Road. Improvements include new picnic tables and bleachers, refurbished basketball court and ball field and new connector pathways and pedestrian

bridges installed throughout the park making it more accessible to the surrounding community. The new design considers the amenities offered at nearby Cadillac Street Park to help increase recreation options.

PROJECT DATE

2013 Site Improvements Complete

PROJECT COST

\$40,000 Site Improvements

FORTUNE ADDITION PARK

FORTY-EIGHTH STREET PARK **BREC NEIGHBORHOOD PARK**

DESCRIPTION

Forty-Eight Street Park improvements include the removal of an obsolete structure, clearing over grown vegetation encroaching on the basketball court and ball field areas. A sand volleyball court was

put in along with new benches, picnic tables and a grill for family picnics.

PROJECT DATE

2012 Improvements Complete

PROJECT COST

\$25,000 Site Improvements

FORTY-EIGHTH STREET PARK

GOODWOOD PARK **BREC NEIGHBORHOOD PARK**

DESCRIPTION

Goodwood Neighborhood Park underwent a master planning process that consisted of a series of public meetings during which BREC presented conceptual plans and gathered public input to the needs and wants of the community. A master plan reflecting the combined information was then produced. Renovations to this park include a new

playground, benches, drinking fountains, dog waste stations, landscaping and a one-quarter mile walking path with a trailhead connecting to the Sevenoaks walking path. BREC also made improvements to the existing parking areas, tennis court, and picnic areas. Funds for renovations were increased due to the efforts of the neighborhood.

PROJECT DATE

- 04/27/2010 Public Input at Civic Association Meeting
- 2011 Park Construction Complete

PROJECT COST

\$193,500 Site Improvements

GOODWOOD PARK

GUS YOUNG PARK **BREC NEIGHBORHOOD PARK**

DESCRIPTION

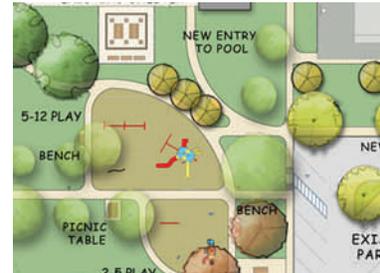

Gus Young Neighborhood Park underwent a master planning process that consisted of a series of public meetings during which BREC provided public input surveys to collect information about the needs and wants of the community, and then produced conceptual plans based on the survey results, and finally a master plan reflecting the

combined information. Park enhancements include improved parking lot with additional spaces added, 1/7 mile exercise loop, new playground featuring separate play areas for 2 to 5 and 5 to 12 age groups, a new outdoor water fountain, benches and landscaping. Improvements to the recreation center and basketball courts are also complete.

HAMILTON AVENUE PARK **BREC NEIGHBORHOOD PARK**

DESCRIPTION

Hamilton Avenue Park features a recreation center and a playground with walking paths. The playground was installed in 2005 and features two separate play areas. One is equipped with a 2-5 year old play unit and tot swing. The other area is

equipped with play structures appropriate for children between the ages of 5-12. The park also has walks, benches, trash receptacles strategically placed for your convenience.

PROJECT DATE

2005 New Playground Complete

PROJECT COST

\$40,000 New Playground

HAMILTON AVENUE PARK

HOOPER ROAD PARK **BREC NEIGHBORHOOD PARK**

DESCRIPTION

The park encompasses 232.85 acres of land which is surrounded by Sharon Hills, Cedar Glen and Pleasant Hills subdivisions. It is north of Hooper Road, near the intersection of Mickens Road and Hooper Road. Facilities include a gym, a playground area, tennis courts, two lighted ball fields, and picnic facilities. The park also features 5 miles of mountain biking and hiking trails that winds through the woods and over bluffs. The Baton Rouge Area Mountain Bike Association (BRAMBA) works closely with BREC to help maintain the trails.

Hooper Road Park is undergoing a master planning process for park renovations. Initial ideas being studied are repurposing the non-air conditioned gym into an airnasium that would allow for extended hours of use by the public and creating a centralized gathering place. The site being studied is located near the ball fields and parking lot and may feature a new playground, improved restrooms, relocating the mountain bike trail head with new signage and installing new walks to connect all the new features.

PROJECT COST

- \$60,000 Site Improvements & New Playground
- \$18,000 Airnasium Demolition
- \$22,000 Restroom & Basketball Court Renovations

JAMES WATSON PARK

JEFFERSON HIGHWAY PARK

BREC NEIGHBORHOOD PARK

DESCRIPTION

This was a private establishment before it was acquired by BREC in 1992. It features tennis courts, a playground and recreation center that provides meeting rooms for public use, a prep kitchen, and offices. In 2012 improvements were made to the park that include two new sand volleyball courts, a refurbished basketball court, additional seating and improved drainage. Two public meetings were held during which BREC provided public input surveys to collect information about the

needs and wants of the community, and then produced conceptual plans based on the survey results, and finally a master plan reflecting the combined information. Park enhancements in 2013 include removal of an antiquated swimming pool and removal of portion of the activity center. Site improvements in Phase II include a reception plaza and a new playground with additional improvements to the parking lot in the next program.
